

MCO/MBHP Encounter Data Scorecard

April 5, 2018

We need to hold plans accountable for submitting accurate encounter data to meet MassHealth downstream business needs

Encounter data are a key data component informing downstream analytics informing monthly claims files, quality measurement, rates, and cost performance.

Issues identified in downstream analytics often have root causes at the encounter data source. Examples include:

- **Quality:** Discrepancies between paid and denied claims lead to lower quality measure scores
- **Rates:** Delays in timely SCO submissions resulted in increased data lags for SCO rate setting
- **Cost Performance:** Missing NDCs in J-codes translates to ~\$10 million in missed rebates

The encounter data scorecard will provide regular feedback to plans on data quality and will penalize plans when benchmarks are not met.

Multiple one-time programs improved encounter data quality; however, there's opportunity for a steady-state process

The first scorecard will be generated in mid-May, with a “practice” baseline scorecard in April

May							Jun						
S	M	T	W	T	F	S	S	M	T	W	T	F	S
			1	2	3	4						1	2
6	7	8	9	10	11	12	3	4	5	6	7	8	9
13	14	15	16	17	18	19	10	11	12	13	14	15	16
20	21	22	23	24	25	26	17	18	19	20	21	22	23
27	28	29	30	31			24	25	26	27	28	29	30
Jul							Aug						
S	M	T	W	T	F	S	S	M	T	W	T	F	S
1	2	3	4	5	6	7				1	2	3	4
8	9	10	11	12	13	14	5	6	7	8	9	10	11
15	16	17	18	19	20	21	12	13	14	15	16	17	18
22	23	24	25	26	27	28	19	20	21	22	23	24	25
29	30	31					26	27	28	29	30	31	

- **Mid-month (M=1):** MassHealth generates updated scorecard for May submission reflecting pay through 4/30.
- **End of month (M=1):** MassHealth hosts meetings with plans to discuss performance and next steps.
- **Next three months (M=2,3,4):** Three additional scorecards are generated, followed by meetings a week later. At M=4, if benchmarks are not met, MH will assess withhold.

- MCOs submit paid encounter data each month via the established submission process
- The following month, a scorecard will be generated detailing performance by month of service
 - Timeliness benchmarks, a 1% of monthly cap withhold will be assessed
 - Completeness (46) and accuracy (4) benchmarks, the scorecard will indicate which benchmarks were not met; plans have 3 chances to meet their benchmark
 - After 3 tries, withholds for completeness and accuracy benchmarks not met will be assessed; each worth 0.2% of monthly cap
- Overall, plans will be assessed a withhold of no more than 2% of monthly cap
- Implementation of cap withhold will be conducted quarterly, reflecting 3 months at a time
- ❖ Assuming DW can prepare baseline performance numbers by 4/13/17, team will host meetings with plans will be held 4/23-4/27 to review results of a baseline scorecard and prepare accordingly in anticipation of the first scorecard release

MCOs will have 3 opportunities to address encounter data issues as reported by the scorecard

Scorecard Delivery:	5/25/18	6/22/18	7/27/18	8/24/18	9/28/18	10/26/18	11/23/18	12/28/18
Submission pay thru date – 1 st	4/30/18 ₁	5/31/18 ₁	6/30/18 ₁	7/31/18 ₁	8/31/18 ₁	9/30/18 ₁	10/31/18 ₁	11/30/18 ₁
Submission pay thru date – 2 nd	--	4/30/18 ₂	5/31/18 ₂	6/30/18 ₂	7/31/18 ₂	8/31/18 ₂	9/30/18 ₂	10/31/18 ₂
Submission pay thru date – 3 rd	--	--	4/30/18 ₃	5/31/18 ₃	6/30/18 ₃	7/31/18 ₃	8/31/18 ₃	9/30/18 ₃
Submission pay thru date – 4 th & Final	--	--	--	4/30/18 _F	5/31/18 _F	6/30/18 _F	7/31/18 _F	8/31/18 _F
Cap penalty imposed quarterly	--	--	--	--	--	--	✓ (reflecting May, June, July Final perf.)	--

3 chances to address scorecard-reported completeness and accuracy issues

First 3 scorecards will focus on timeliness and completeness, thereafter increasing focus will be on accuracy

Metric	Example	# Measures included in scorecard	
		May, June, July	Aug, Sept, Oct ¹
Timeliness – measure of turn-around-time for plan to submit original, corrections, and manual override files prior to month-end	Submitting pay-through 4/30/18 paid encounters submission by 5/31/18	2: paid, denied	2: paid, denied +1 specific to paid claims corrections file
Completeness – the extent to which data fields are filled in and readable.	100% of fields containing Member ID must be complete	48: Fields must be at least 98%-100% complete	48: Fields must be at least 98%-100% complete
Accuracy – the extent to which data field values make sense, given business requirements and use cases.	Within claims	ED claims missing ED revenue codes N/A	3 targets
	Across claims	Servicing and billing provider identical no more than 85% of the time N/A	1 target

1. Scorecard to be reviewed and new measures added quarterly as team develops better understanding of data issues and how best track and measures performance.

Tactical next steps and responsible parties for implementation

Apr						
S	M	T	W	T	F	S
1	2	3	4	5	6	7
8	9	10	11	12	13	14
15	16	17	18	19	20	21
22	23	24	25	26	27	28
29	30					

May						
S	M	T	W	T	F	S
			1	2	3	4
5	6	7	8	9	10	11
12	13	14	15	16	17	18
19	20	21	22	23	24	25
26	27	28	29	30	31	

	Step	DGRS	DW	Plans	CMs
	4/1-4/13		X		
○	4/9	X			
○	4/13		X		
○	4/18	X			X
■	4/23-4/27	X		X	X
○	5/17		X		
○	5/25	X		X	X

Items for executive attention

- DGRS team needs leadership support to ensure DW understands importance of report, and has commented appropriate resources to generate baseline and early scorecards (immediate), and implement forthcoming Accuracy measures (over next few months)
- MBHP contract does not have the same penalty language as currently included in MCO contract

Next steps

- Align with PCDI, DW, Strategy and Finance, and other internal stakeholders to finalize scorecard requirements
- Notify MCOs/MBHP of baseline data review prior to baseline review meeting
- Confirm payment management logistics (penalty withholding from capitation)

Appendix

Scorecard structure is similar to that of previous MCO and existing SCO scorecards

Measure	ID	Field ID	Claim Type	Benchmark
				46
Member ID	1	76	All Claim Types	100%
From Service Date	2	17	All Claim Types	100%
To Service Date	3	18	All Claim Types	100%

Measure	ID	Field ID	Claim Type	Benchmark
Name of field(s) applicable to the benchmark, or description of issue being addressed	ID assigned in Encounter Data Scorecard for ease of reference	IDs of relevant fields, as they appear in the Encounter Data Specification document	Claim category: • Facility (Inpatient/ Outpatient) • Professional • Long Term Care • Prescription Drug • Dental	Condition that must be met in order for given measure to pass

- Scorecard format is based on previous MCO and new SCO scorecard initiatives
- The scorecard will contain two summary views: one for rolling-12 months performance, and one for rolling-3 months performance
- Each month will have its own tab, to allow plans to compare benchmark performance leading up to the 3-month milestone

Appendix A: Scorecard measures (1 of 2)

ID	Field ID	Measure	Source	Claim Type	Benchmark	% of MCOs that Met Benchmark*
1	76	Member ID	SCO	All Claim Types	100%	100%
2	17	From Service Date	SCO	All Claim Types	100%	100%
3	18	To Service Date	SCO	All Claim Types	100%	100%

Appendix C: Plan to add additional accuracy metrics over time

1. Encounter Data Analyst collects encounter data issues amongst MassHealth business stakeholders on regular basis.
2. Encounter Data Analyst and Data Warehouse gather data to review issues.
3. Encounter Data Analyst hosts steering committee meeting to review analysis and confirm issue priority. Following meeting, DW will design and develop metrics for inclusion into future scorecard.
